Sprint 3 Plan
Product: Amazon Discount Finder
Team: ADF
Date: November 19, 2017

1 Goal

We want to access items through the Amazon API and scrape from camelcamelcamel.

2 Task Listing

- As a developer, I want to scrape everything off of goldbox.

    - Task 1: Find out why the next button is not clickable. (10 hours)
    - Task 2: Find out how to convert unicode to ascii string (1 hour)

    Total: 11 hours

- As a user, I want to get the discounted items I was looking for

    - Task 1: Integrate API into main (1 hours)
    - Task 2: Integrate goldbox scraper into main. (4 hour)
    - Task 3: Integrate camel scraper with main method. (20 hours)

    Total: 25 hours

- As a user, I want to have items automatically added to my cart..

    - Task 1: Figure out which API call to use (1 hours)
    - Task 2: Find out how to create and add to a shopping cart (1 hours)
    - Task 3: Find out how to save a shopping cart to a specific user. (3 hours)

    Total: 5 hours
